It is our great pleasure to invite you to participate in the the 5th International Workshop on Multidimensional (*nD*) Systems (nDS2007).

Following the previous four editions (Lagów, 1998, Czocho 2000, Notre Dame 2002, Wuppertal 2005), nDS2007 will be held in Aveiro, Portugal, from June 27 to June 29, 2007.

The aim of this workshop is to present the current state of the art in the theory and applications of multidimensional systems as well as to enable active researchers in the area of *nD* systems to meet and exchange ideas.

We do hope that this will give you a good opportunity to discuss new trends and exchange knowledge and experiences.

Confirmed plenary speakers are:

Wojciech Paszke, University of Zielona Gora, Poland

Harry Trentelman, University of Groningen, The Netherlands

Eva Zerz, RWTH Aachen University, Germany

Contributed papers and special sessions for nDS2007 are hereby solicited in all areas of *nD* systems as well as emerging fields in engineering with actual or potential impact in circuits, automatic control systems and signal processing.

Submission of Papers

Prospective authors are invited to submit unpublished, full-length papers, according to the instructions on the workshop website.

All papers must be submitted in electronic form to nds07@mat.ua.pt.

Submission of Special Session proposals

Special session proposals should be submitted in electronic form to nds07@mat.ua.pt, and must include a session outline, a short abstract for each paper, and contact information for the proposer and an author of each paper.

Important Deadlines	
March 1, 2007	Submission of full papers and special sessions
April 15, 2007	Notification of acceptance
May 1, 2007	Camera-ready papers
June 15, 2007	Registration deadline

Please check <http://www.mat.ua.pt/nds07> for up to date information.
