Education

Dates	2011 → 2014
Title of qualification awarded	PhD Degree in Chemical and Biological Engineering (4 years)
Name and type of organisation providing education and training	University of Minho (Braga, Portugal)
Classification	Approved
Dates	2009 → 2011
Title of qualification awarded	Master Degree in Textile Chemistry (2 years)
Name and type of organisation providing education and training	University of Minho (Guimarães, Portugal)
Classification	16
Dates	2003 → 2008
Title of qualification awarded	Degree in Biochemistry and Food Chemistry (4 years)
Name and type of organisation providing education and training	University of Aveiro (Portugal)
Classification	12
Internship	Short-scientific mission under the field of COST action FP1405 – ActInPak (2017) “ Chitosan-genipin paper coating – an alternative approach for active packaging materials ”, Grenoble INP – Pagora, France, 5 th March – 8 th April.

Leadership on National Scientific Projects

- 2) "PLASTICOLIGHT – Cargas de baixa densidade para formulações plásticas" (POCI-01-0247-FEDER-033848), an I&DT project supported by Portugal2020 program in co-promotion between Isolago, a Portuguese plastic industry, and University of Aveiro (Portugal), with a total funding of **696.631,92 €**, being **322.894,41 €** attributed to the University of Aveiro, 36 months, will start in September 1st, 2018.
- 1) "POTATOPLASTIC" - Desenvolvimento de um composto bioplástico biodegradável à base dos subprodutos de batata" (POCI-01-0247-FEDER-017938), an I&DT project supported by Portugal2020 program in co-promotion between Isolago, a Portuguese plastic industry, and University of Aveiro (Portugal), with a total funding of **1.690.739,84 €**, being **353.860,96 €** attributed to the University of Aveiro, 36 months, started in November 1st, 2016 (ongoing).

Participation on National Scientific Projects

- 1) "Biopolímeros aplicados à embalagem de medicamentos" (VALORMED PI&D 2020), with a total funding for the University of Aveiro of **19.711,98 €**, 6 months, will start in January 1st, 2020.

Participation on European Projects

- 2) "NOVO" - Novel approaches for prevention of biofilms formed on medical indwelling devices, e.g. catheters (FP7-HEALTH-2011.2.3.1-5) at the University of Minho (Braga, Portugal).
- 1) "Cottonbleach" - Improved novel eco-friendly bleaching system for cotton using enzyme and ultrasound processes (FP7-SME-2008-2; 243529-2-cottonbleach) at the University of Minho (Braga, Portugal).

Local organization of scientific meetings

- 2) Materiais 2017. 9th – 12th April 2017. University of Aveiro. Portugal.
- 1) Hybrid Interfaces Cost Action MP1202 (HINT) - General Scientific workshop and Review Meeting. 10th – 12th October 2016. University of Aveiro. Portugal.

Reviewer of Scientific Papers

- 3) *Molecular Catalysis*, IF2017 = 4.211 – 1 paper (2018)
- 2) *Food Hydrocolloids*, IF2017 = 5.089 – 1 paper (2018)
- 1) *Carbohydrate Polymers*, IF2017 = 5.158 – 7 papers (2016, 2017, and 2018)

Examiner of Master Thesis

- 1) João Pedro Martins de Almeida e Silva (2018) “**Redução dos custos em matéria-prima na célula de insuflação de uma fábrica de embalagens plásticas**”, Universidade de Aveiro, Mestrado Integrado em Engenharia Mecânica.

Awards

- 1) Best lecture in 3rd International EPNOE Junior Scientists meeting (2018), sponsored by the Lenzing group with a travel grant of 500 €, Maribor, Slovenia (14 – 15th May)

Scientific Supervision

- 4) Elisabete Verde Martins Coelho, postdoctoral scholarship financed by POTATOPLASTIC project, March 2018 – ongoing.
- 3) Gonçalo Vieira Saraiva de Oliveira, master scholarship financed by POTATOPLASTIC project, November 2017 – ongoing.
- 2) Joana Filipa Martinho Lopes, master scholarship financed by POTATOPLASTIC project, November 2016 – ongoing.
- 1) Ana Filipa Cardoso Barra, master scholarship financed by POTATOPLASTIC project, November 2016 – October 2017.

Students' Supervision

- 6) Alexandre Vala (2018) “Potato peel: a filler or a plasticizer for starch films?”. Project of the 3rd year of the Biotechnology 1st Cycle, 12 ECTS, University of Aveiro. Portugal
- 5) Joana Pereira (2018) “CS3: Coffee SilverSkin for Starch films”. Project of the 3rd year of the Biotechnology 1st Cycle, 12 ECTS, University of Aveiro. Portugal

- 4) Cátia Sofia Dourado Cruz (2017) "GENIPINCHALLENGE - À procura da química nas reações de polimerização da genipina". Project of the 3rd year of the Biochemistry 1st Cycle, 14 ECTS, University of Aveiro. Portugal
- 3) Rita Ferreira Sardão (2017) "ACTIVEPACKAGING - Extração, caracterização e incorporação dos compostos fenólicos da casca de batata em bioplásticos à base de amido". Project of the 3rd year of the Biotechnology 1st Cycle, 12 ECTS, University of Aveiro. Portugal.
- 2) Sara Maria Teixeira Magalhães (2017) "HIGROPACK – Desenvolvimento de um bioplástico à base de amido com capacidade de absorver a humidade libertada pelos alimentos". Project of the 3rd year of the Biotechnology 1st Cycle, 12 ECTS, University of Aveiro. Portugal.
- 1) Diana Hernández Gonçalves Leitão (2016) "Genipina, um agente reticulante natural para bioplásticos à base dos subprodutos da indústria de batata". Project of the 3rd year of the Biochemistry 1st Cycle, 14 ECTS, University of Aveiro. Portugal.

Participation in students' class lectures

- 2) Lecture for the course Seminários de Bioquímica of the Biochemistry Master at the University of Aveiro, Portugal, entitled "**Biopolymers as food packaging materials**" (2016).
- 1) Lecture for the course of Current Issues in Genetics (DBio seminars) of the Molecular Genetics Master at the University of Minho, Braga, Portugal, entitled "**Biopolymers as food packaging materials**" (2016).

Other dissemination activities (expositions for general society)

- 3) Exposition at UA Open Campus 2018, University of Aveiro, Portugal with a stand entitled "**Dos resíduos agroalimentares aos bioplásticos - Uma estratégia para a redução da pegada ecológica**".
- 2) Exposition at Noite Europeia dos Investigadores 2017, Fábrica da Ciência Viva, Aveiro, Portugal with a stand entitled "**POTATOPLASTIC – dos resíduos da indústria de batata frita à produção de bioplásticos**".
- 1) Exposition at TechDays 2016, Parque de Exposições, Aveiro, Portugal, with a stand entitled "**Biorrefinaria: Novos Processos, Produtos Químicos e Materiais a Partir de Sub-Produtos Agroflorestais e Alimentares**".
